Engineered for the extremes: where reliability is non-negotiable.

Built for the real world

Meet the IPC3, a fanless industrial computer born to thrive where others falter. Its rugged, all-aluminium chassis and anodised silver finish shrug off dust, vibration, and extreme temperatures, delivering unwavering 24/7 performance in the most demanding settings. This is silent, steadfast computing designed from the ground up for industrial resilience.

Your steadfast partner in automation and control

This isn't just a computer; it's the dependable core of your operation. With its fanless design eliminating moving parts, it ensures years of maintenance-free service, critical for continuous production lines and remote IoT installations. The robust connectivity, including multiple serial ports, makes it the perfect command centre for legacy machinery and modern systems alike.

Why choose the IPC3

- Conquer harsh environments with a rugged, fanless build that operates silently and reliably.
- Deploy with confidence for 24/7 mission-critical applications, from factory floors to smart agriculture.
- Simplify integration with versatile industrial connectivity, ready to communicate with a wide array of equipment.
- Invest in durability and longevity with a robust design that reduces downtime and total cost of ownership.
- Support innovation with a platform proudly 100% designed in India for global industrial challenges.
