Tough enough for the factory floor, smart enough for the digital age.

Built for the places ordinary computers fear to tread. The Thinvent IPC3 is a fanless industrial workhorse that shrugs off dust, heat and vibration, so your operations never skip a beat. Designed for relentless 24x7 duty, it delivers consistent, dependable performance shift after shift, year after year.

Why choose the IPC3?

- It keeps its cool in silence

With no fan to clog or fail, this sealed aluminium chassis runs passively, eliminating dust ingress and moving parts that break. That means less downtime and lower maintenance costs over the life of your deployment.

- It copes with demanding environments

Whether it is controlling a production line, powering a smart kiosk, or managing on-site IoT data, the IPC3 handles temperature swings and industrial settings with poise. The anodised finish resists wear, keeping your equipment looking professional for longer.

- It connects everything you need

With dual Gigabit Ethernet for reliable networking, wireless connectivity for flexible installation, and a full array of serial ports for legacy machinery, the IPC3 bridges old and new technology seamlessly.

- It is ready for business from day one

Supplied with Windows 11 Professional, it drops straight into your existing IT ecosystem. The powerful multi-core processor ensures snappy responsiveness for control software, data logging, and edge applications.

- It is built by people who understand industry

Proudly 100% designed in India, this robust PC is crafted to exacting standards, giving you the confidence of a product engineered for real-world production duty.

If you need a computer that keeps running when conditions turn rough, the IPC3 is the dependable foundation your next project deserves.
