Engineered for extremes, built to last.

Introducing the Thinvent IPC3 Industrial PC: your steadfast digital partner for the most demanding environments. This isn't just a computer; it's a ruggedised solution for continuous, reliable operation where others fail.

Built for relentless performance

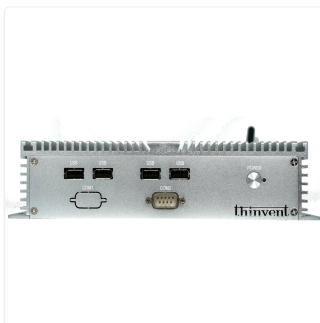

Forget fragile office hardware. The IPC3 is crafted for 24/7 duty in factories, warehouses, and remote IoT installations. Its robust, fanless design means no moving parts to clog or break, ensuring silent, dust-resistant operation from freezing cold to intense heat.

Simplify connectivity, unleash control

Manage a world of industrial equipment with ease. Four serial ports provide direct, legacy-compatible links to machinery, sensors, and PLCs, while dual Ethernet keeps your network robust and redundant. With built-in Wi-Fi, you gain the flexibility for both wired and wireless deployments.

Trust in robust, intelligent design

Proudly 100% designed in India, this PC combines smart engineering with durable, anodised aluminium construction. It arrives ready to work with a stable Ubuntu Linux OS, offering a secure and open platform for your custom applications without the bloat. Focus on your operation, not on your hardware. Choose the IPC3 for unwavering reliability where it matters most.
