Unleash Next-Gen Power at the Industrial Edge.

Meet the Thinvent IPC5: The robust, high-performance industrial PC engineered for demanding environments where reliability is non-negotiable. This fanless powerhouse, designed and built in India, delivers unwavering computing muscle for your most critical operations without the vulnerabilities of moving parts.

Built for Demanding Applications

- Engineered to excel in advanced industrial automation, sophisticated machine vision systems, and intelligent edge computing deployments.
- Its rugged, fanless aluminium chassis ensures silent, dust-proof operation across a wide temperature range, built for 24/7 durability.

- Enjoy superior connectivity with dual Gigabit Ethernet ports and legacy serial support, seamlessly integrating with both modern and existing industrial equipment.

Why Choose the IPC5

- Deploy a compact, utterly reliable computing core that thrives where standard PCs fail, from factory floors to remote installations.
- Leverage serious processing power to drive complex tasks and real-time data processing right where it's needed most.
- Invest in a streamlined, professional solution with a sleek anodised grey finish, designed for performance without compromise.
