Engineered for the relentless rhythm of industry.

Built for the toughest jobs on the factory floor and beyond, the Thinvent IPC5 delivers uncompromising power in a silent, rugged package. This is the robust computing core for advanced automation where failure is not an option.

Unmatched Power and Reliability

- Experience smooth, responsive performance for complex machine vision, data acquisition, and real-time control systems, keeping your most critical processes running flawlessly.
- Its completely fanless design eliminates dust intrusion and mechanical failure points, ensuring 24/7 operation in harsh, dusty environments without a whisper.
- The robust aluminium chassis with a smooth anodised finish provides superior heat dissipation and stands up to the knocks and vibrations of industrial life.

Ultimate Connectivity for Industrial Integration

- Seamlessly connect to a legacy world with four serial ports while embracing modern networks with dual Gigabit LAN, making integration into existing and new systems effortless.
- Deploy it anywhere as a powerful edge computing node, leveraging built-in dual-band WiFi to gather, process, and transmit data right where it's created.
- Proudly 100% designed in India to meet the specific demands of modern industry, it arrives ready to work with Windows 11 Pro for a familiar, powerful interface.

Stop compromising. Choose the silent, rugged powerhouse built to drive your automation forward.
