Built for the relentless rhythm of industry: The Thinvent IPC5 Industrial PC.

Unmatched power for the modern factory floor

Harness the advanced processing might of Intel® Core™ Ultra to drive complex automation, high-speed machine vision, and intelligent edge computing tasks. Experience seamless multitasking and rapid data handling that keeps your most demanding applications running without a hitch.

Rugged reliability in a silent, sleek design

Engineered for 24/7 operation in harsh environments, its robust fanless aluminium chassis ensures complete silence and immunity to dust. The smooth anodised finish isn't just for looks—it provides superior durability in conditions where other computers would fail.

Ultimate connectivity for seamless integration

With dual LAN, multiple serial ports, and comprehensive I/O, this unit is the ultimate hub. Easily connect to a vast array of legacy machinery, modern sensors, and network infrastructure, simplifying your setup and future-proofing your investment.

Designed for India, built for the world

Proudly 100% designed in India to meet the specific challenges of industrial environments everywhere. It's the dependable, high-performance computing core you need to innovate, automate, and elevate your operations.
