Built for the floor, ready for the future.

The Thinvent IPC5 is the workhorse your operation deserves. In demanding industrial settings, downtime is not an option. That is why we have engineered this fanless marvel to thrive where ordinary computers struggle, delivering dependable performance day in and day out without the fuss of moving parts or cooling fans to fail.

At its heart lies a powerful 12-core Intel Core i5 processor, ready to tackle advanced industrial automation, machine vision, and edge computing with effortless speed. From the factory floor to the control room, it responds instantly, keeping your processes flowing smoothly and your productivity high. With a generous array of connectivity options, the IPC5 easily links to legacy machinery and the latest peripherals alike, making integration a breeze and future-proofing your investment.

Its robust aluminium housing, finished with a smooth anodised grey coat, is as tough as it is elegant. Built to shrug off dust, heat, and vibration, the IPC5 installs discreetly and runs silently, so you can place it exactly where you need it. It is a truly rugged, dependable partner for continuous operation. And with every unit 100% designed in India, you are choosing precision engineering and meticulous quality you can trust.

Do not settle for fragile commercial hardware. Choose the Thinvent IPC5 and keep your world turning without interruption.
