Unleash industrial intelligence at the edge.

Engineered for relentless performance

Where other computers falter, the Thinvent IPC5 thrives. Its advanced processing muscle and robust, fanless design deliver unwavering power in the most demanding environments. From dusty factory floors to critical control rooms, this is the reliable brain your operation needs.

Built for the real world

This isn't just a computer; it's an industrial asset. The all-aluminium housing with its smooth anodised finish provides superior protection and heat dissipation, ensuring silent, maintenance-free operation. Withstand temperature fluctuations and keep your processes running 24/7 without interruption.

Connect and control anything

Command legacy machinery and modern systems with ease. The generous array of connectivity, including multiple serial ports, allows you to interface with a vast ecosystem of industrial equipment. It's the ultimate hub for advanced automation, precise machine vision systems, and powerful edge computing applications.

Proudly conceived and crafted in India to meet the toughest global standards, the IPC5 is the dependable, high-performance core for your smart industrial future.
