## Intel Core i7-1255U processor

10 core, up to 4.7 GHz, 12 MB cache

## Dual LAN

## 4GB DDR4 RAM

## 1TB SSD

## No WiFi

## Windows 11 Professional

## Quad DB9 Serial

SKU: IPC5-I7\_12L-4-M1024-12\_7-X-11O-4S

Rugged intelligence for the factory floor, built to outlast the job.

Meet the IPC5 – the industrial PC that takes everything your site throws at it and keeps delivering, shift after shift.

### Why you need it

- Engineered for the most demanding environments, this fanless workhorse survives dust, vibration and 50°C heat without breaking a sweat.
- Its high-performance Intel® Core™ i7 processor powers through complex tasks, from real-time machine control to data-heavy vision systems.
- No fans means no blocked vents, no dust build-up and no unexpected downtime – just silent, continuous reliability.

### Built to connect everything

- With a wealth of serial, USB and dual Gigabit Ethernet ports, the IPC5 talks to legacy machinery and modern sensors alike, making it the natural hub for your entire operation.

- Whether you're running advanced industrial automation, deploying machine vision or processing at the edge, this PC gives you the speed and headroom you need.

### Designed without compromise

- Crafted from a smooth, anodised aluminium housing in an understated grey, the IPC5 looks as professional as it performs – and it's built to be wall-mounted or tucked neatly into any control cabinet.
- 100% designed in India, it brings world-class engineering to your production line with the confidence of a product made for real-world use.

### Make your systems faster, smarter and more reliable

- The IPC5 is the robust, long-lasting alternative to ageing office-grade PCs that simply aren't up to an industrial setting.
- When uptime matters and every second counts, this is the machine you can trust.

Power your next project with the IPC5 – and leave the reliability worries behind.
