Unleash industrial power, built to endure.

Meet the Thinvent IPC5: the robust, high-performance engine for your most demanding applications. Designed from the ground up for relentless environments, this fanless industrial PC delivers unwavering reliability where it matters most.

Built for demanding environments

- Engineered for 24/7 operation in challenging conditions with a rugged, fanless aluminium chassis.
- Advanced thermal management ensures silent, dust-resistant performance for ultimate reliability.
- Features a comprehensive array of connectivity ports to seamlessly integrate with legacy and modern industrial equipment.

Your hub for advanced automation

- Provides the substantial processing power needed for complex machine vision, data acquisition, and real-time control systems.
- Acts as a powerful edge computing node, processing data locally for faster insights and reduced network latency.
- A versatile cornerstone for sophisticated industrial automation, IoT gateways, and digital signage solutions.

Proudly engineered and 100% designed in India, the IPC5 combines intelligent performance with rugged dependability in a sleek, anodised grey enclosure. It's more than a computer; it's the durable brain for your intelligent operations.
