Built for the factory floor, ready for your front desk.

The Thinvent 15" Industrial Panel PC brings dependable computing to places where ordinary desktops struggle. Whether it is a production line, a warehouse station, a clinic reception or a retail counter, this all in one panel keeps your work flowing without clutter or complication.

Where it earns its keep

- Shop floor and production monitoring, where a bright 15 inch screen stays readable from wide angles
- Point of sale and billing counters that need a tidy, self contained terminal
- Inventory, dispatch and quality check stations that run all day
- Kiosk, reception and information points in busy public areas
- Machine side control and data entry in workshops and plants

Why teams choose it

- The Intel processor with four cores handles everyday business software, dashboards and browser based tools without hesitation
- Solid state storage means quick start ups and no moving parts to wear out
- The aluminium housing and passive thermal design suit hot, dusty environments where a standard PC would soon give trouble
- Gigabit Ethernet keeps your connection to servers and databases steady
- Plenty of USB ports for scanners, printers and handheld devices
- HDMI and VGA outputs let you drive a second display when you need more screen space
- Comes complete with a Thinvent keyboard and mouse, so you can set it up and get straight to work

If you need a dependable panel computer that simply keeps going, shift after shift, this is the one to put on your bench.
