Your dependable workstation for the factory floor.

The Thinvent 15" Industrial Panel PC brings reliable computing power to demanding environments. Powered by an Intel processor with four cores running up to 2.9 GHz, it handles your everyday industrial applications with ease.

Built for the shop floor

- Fanless passive cooling means no moving parts to draw in dust or fail
- Aluminium housing stands up to the rigours of industrial settings
- 15 inch screen with 350 nits brightness stays readable in busy workspaces
- Wide 178 degree viewing angles let operators check status from different positions

Ready for your production line

- 4 GB memory and 128 GB SSD keep operations smooth
- Four USB 3.0 ports connect scanners, printers, and peripherals

- Gigabit Ethernet ensures fast, stable network connectivity
- HDMI and VGA outputs support additional displays
- Speaker out and mic in for clear communication

Simple to deploy

- Runs without an operating system, so you install exactly what your process needs
- 12V power input with a 2 metre cable fits standard industrial setups
- Compact panel PC form factor saves valuable bench or cabinet space

Whether you are upgrading an existing station or building a new control point, this panel PC delivers the consistent performance your operation depends on. It is designed to keep working when conditions are less than ideal, so your team stays productive shift after shift.
