Big performance for the factory floor.

The Thinvent® 15" Industrial Panel PC brings desktop-class speed to your production line, your control room, or your shop floor terminal. With an Intel® Core™ i3-1215U processor, it responds instantly to every touch and click, so your operators are never left waiting on a sluggish screen.

Why choose this panel PC

- Run demanding industrial software smoothly, from SCADA dashboards to quality inspection tools, thanks to six processing cores working together.
- Keep your workspace clean and reliable with a fanless design that has fewer moving parts to wear out.

- See clearly from any position, with a wide viewing angle that keeps readings visible for operators standing to the side.
- Connect your existing equipment easily through RS485, Ethernet, and multiple USB ports, so you can integrate without a rebuild.
- Trust the aluminium housing to stand up to heat, dust, and the knocks of daily industrial life.
- Deploy with confidence using Windows 11 Professional, ready for your business and industrial applications straight out of the box.

Whether you are upgrading an ageing terminal or equipping a new line, this panel PC is built to keep your operation running.
