Power through every shift without missing a beat.

When your production line, kiosk, or control station needs a display that keeps up, this 15 inch industrial panel PC from Thinvent is built to deliver. The 13th generation Intel Core i5 processor with 10 cores and speeds up to 4.6 GHz handles demanding applications smoothly, so your team spends less time waiting and more time getting things done.

Here is why this panel PC belongs on your floor

- Reliable performance in demanding environments, thanks to a fanless passive cooling design and an aluminium housing that stands up to industrial conditions.
- Clear, consistent visuals from the 1024 x 768 display with 350 nits brightness and wide 178 degree viewing angles, so operators can read it from almost anywhere on the line.

- Flexible connectivity with HDMI, VGA, four USB ports, gigabit Ethernet, and audio in and out, making it easy to integrate with existing equipment and peripherals.
- Ready to run your way, shipping without an operating system so you can install exactly what your workflow requires.
- Simple power setup with a 12 volt adapter and support for standard AC input, fitting neatly into most installations.

Whether you are upgrading an existing station or building something new, this panel PC gives you the processing power and dependability your operation needs. Choose Thinvent and keep your business moving.
