Power through the workday without missing a beat.

The Thinvent 15" Industrial Panel PC is built for businesses that need dependable computing on the factory floor, in the warehouse, or at the point of service. With a 13th generation Intel Core i5 processor delivering 10 cores of responsive performance, it keeps up with demanding applications, from real-time monitoring dashboards to inventory management systems, without slowing you down.

Why choose this panel PC

- Runs Ubuntu Linux 24.04 LTS straight out of the box, giving you a secure, stable platform that is ready for your custom software from day one.
- The 15 inch display with wide viewing angles stays clear and readable from almost any position, so operators can check status at a glance without squinting or shifting around.

- Fanless passive cooling means fewer moving parts to wear out, less dust ingress, and quieter operation in environments where reliability matters most.
- Dual band WiFi and Gigabit Ethernet keep your systems connected to the network, whether you are streaming production data or syncing records in real time.
- Aluminium housing stands up to the bumps and knocks of busy industrial settings.
- Multiple USB, HDMI, and VGA ports make it easy to connect scanners, printers, cameras, and legacy equipment without extra adapters.

Whether you are upgrading an existing workstation or equipping a new line, this panel PC delivers the performance and stability your operation depends on. It is the practical choice for teams that cannot afford downtime.
