Big performance for the factory floor.

The Thinvent 15" Industrial Panel PC brings AMD Ryzen 5 muscle to your production line, putting responsive computing right where the work happens. With six cores ready to handle demanding applications, this panel PC keeps your operators moving without frustrating delays.

Built for real industrial environments

- Runs Windows 11 IoT Enterprise LTSC 2024 Value, giving you a stable platform that receives security updates without feature changes disrupting your workflow
- Fanless passive cooling in an aluminium housing means fewer moving parts to fail in dusty or hot conditions
- 15" display with wide viewing angles lets operators read clearly from different positions on the floor
- Dual band WiFi and Gigabit Ethernet keep you connected to your network and production systems

Where it earns its keep

- Shop floor terminals for machine monitoring and control
- Production line dashboards showing real-time output and status
- Warehouse stations for inventory and logistics management
- Quality inspection points where operators need reliable access to test data
- Kiosk applications in manufacturing and processing environments

The included keyboard and mouse set means you can deploy straight out of the box. With 4GB DDR4 memory and 128GB SSD storage, you have room for your essential applications and local data.

When you need a panel PC that handles industrial workloads without hesitation, the Thinvent 15" delivers the processing power and reliability your operation depends on.
