Meet the workhorse your workspace deserves: the Thinvent Neo R/4 Mini PC packs dependable everyday performance into a tough, space-saving design.

Why you'll want it on your desk

- It handles daily business tasks with ease, from office suites to web-based tools, so you can stay productive without a bulky tower.
- Its powder-coated steel housing shrugs off knocks, dust and the rigours of a busy environment, giving you a system built to last.
- The compact footprint frees up valuable desk space, yet still offers plenty of ports for your monitors, peripherals and network.
- It runs quietly and sips power, keeping your energy bills down and your workspace calm.
- Windows 11 Professional comes ready to go, bringing familiar productivity features and strong security out of the box.

Where the Neo R/4 shines

- In retail and hospitality settings, it can power point-of-sale systems, kiosks and customer displays without cluttering the counter.

- In offices and reception areas, it drives dual displays for multitasking, presentations or digital signage, all from one discreet unit.
- In light industrial and lab environments, its durable construction and stable operation make it a reliable partner for monitoring and control tasks.
- It also suits home offices, home servers or media setups where a small, solid and efficient computer makes perfect sense.

The practical difference

- You get a focused, no-nonsense machine with enough memory and storage for everyday workloads, and the ability to expand when you need more.
- With Ethernet at gigabit speed, you'll enjoy fast, stable connectivity for cloud apps, remote access and file transfers.
- Thinvent's industrial heritage means this mini PC is engineered for continuous operation and long service life, not just consumer convenience.

Choose the Neo R/4 if you want a computer that quietly gets on with the job, keeps your workspace tidy and stays dependable for years to come.
