Unlock big performance from a tiny powerhouse.

Engineered for relentless reliability in any setting, the Thinvent Neo R/4 Mini PC is your silent partner for business-critical tasks. Its robust steel housing and certified design mean it thrives where other computers falter, from the factory floor to the busy retail counter.

Built for purpose, not just performance

Imagine the possibilities

- Drive digital signage and kiosks with unwavering stability, 24/7.
- Create a compact and efficient workstation for office productivity and light design work.

- Power your IoT gateway or network appliance with a trusted, secure Linux foundation.
- Serve as a dedicated media centre or home server, tucked neatly out of sight.

With pre-installed Ubuntu Linux, you benefit from a secure, open-source platform that's ready for your software from the moment you power on. Its ultra-compact form liberates valuable space, while robust connectivity options ensure it integrates seamlessly with your existing monitors and peripherals.

Choose the Thinvent Neo R/4. Where robust industrial design meets everyday versatility, without compromise.
