Unleash powerful, reliable computing in the palm of your hand.

Designed for dedicated performance

This compact powerhouse is engineered for industrial and commercial environments where consistent, dependable operation is non-negotiable. Free from the complexities of unnecessary wireless connections, it offers a stable, secure platform for your critical applications.

Perfect for your core operations

- Drive digital signage and information displays with unwavering stability.
- Serve as the reliable brain for kiosks, point-of-sale systems, and process control.

- Create a dedicated workstation for productivity software in offices, workshops, or labs.
- Build a streamlined, low-maintenance system for monitoring or data logging.

Built to endure

Housed in a rugged, steel chassis, the Neo R/4 is built for the long haul in challenging conditions. Its fanless design ensures silent, dust-resistant operation, minimising points of failure. With essential certifications like BIS and RoHS, you can trust in its quality and compliance.

Simplify your setup and focus on what matters. The Thinvent Neo R/4 delivers the robust, no-fuss computing foundation your business needs to run smoothly, day in and day out.
