Unleash Big Performance from a Tiny Powerhouse.

The Thinvent Neo R/4 Mini PC delivers robust, industrial-grade computing in a remarkably compact form. It's engineered for reliability in demanding environments, ensuring your operations run smoothly day in and day out.

Ideal For

- Digital signage and kiosk management in retail or hospitality.
- Light industrial automation and process control.
- Space-constrained office workstations or reception points.

- Secure network gateway and firewall applications.

Why Choose the Neo R/4

Silent and efficient, it eliminates the clutter and noise of traditional towers. Its robust steel construction is built to last, while the dual LAN ports provide critical network redundancy for always-on connectivity. Pre-loaded with a stable Windows IoT operating system, it offers a secure and manageable platform for your specialised software. Everything you need is included in the box for a quick and simple setup, letting you focus on your work, not your hardware.
