Unleash the power of a desktop, liberated from the desk. The Thinvent® Neo R/4 Mini PC delivers robust computing for demanding professional environments, all in a compact, rugged chassis that frees up your valuable workspace.

Engineered for reliability

- Its industrial-grade steel construction ensures steadfast operation in challenging conditions, from shop floors to control rooms.
- Dual Gigabit Ethernet ports provide critical network redundancy and high-speed connectivity for data-intensive tasks.
- With a wide-range power input and operating temperature tolerance, it performs consistently wherever your operations are.

Simplify complex operations

- This potent mini PC is the perfect nerve centre for digital signage, kiosks, and thin client setups, driving displays with crisp clarity.
- It effortlessly handles machine interfacing, process monitoring, and other industrial automation applications without bulk or fuss.
- The absence of WiFi offers enhanced security for sensitive networks, giving you complete control over your data pathways.

Choose the Neo R/4 for a no-compromise computing solution that prioritises durability and seamless integration. It's the dependable, powerful heart for your specialised systems.
