Engineered for the Demands of Modern Industry.

Perfect for mission-critical applications, the Thinvent® Neo R/4 Mini PC delivers robust, silent computing power wherever you need it most. This compact powerhouse is built to thrive in challenging environments, offering unparalleled reliability for your core operations.

Ideal Use Cases

- Digital signage and information kiosks in retail or public spaces.
- Industrial automation and control systems on the factory floor.
- Dedicated thin client or secure workstation for office environments.
- Edge computing and IoT gateway applications.

Why Choose the Neo R/4

Unmatched reliability is at its core. Its fanless, solid-state design means there are no moving parts to fail, ensuring silent, maintenance-free operation in dusty or sensitive areas. Dual Ethernet ports provide essential network redundancy or the flexibility to manage separate networks, crucial for security and uptime.

It arrives ready to work, pre-installed with our Thinux™ Embedded Linux OS. This secure, lightweight platform includes vital tools for remote management and popular applications, allowing for quick deployment and easy integration into your existing infrastructure. The Neo R/4 is your steadfast, efficient partner for projects that simply cannot afford to fail.
