Meet the Thinvent® Neo R/4 – a quiet powerhouse that brings serious computing muscle to your worksite without taking up an inch of unnecessary space.

Made to work as hard as you do

- Slip it behind a screen, under a desk, or inside a kiosk – it runs discreetly and reliably wherever you need it.
- Its tough steel housing shrugs off knocks, dust and daily wear, so it keeps performing shift after shift.
- The responsive 14th-generation processor handles demanding business software, multi-tasking and data-heavy applications without breaking a sweat.

Connectivity that keeps you moving

- Twin Gigabit Ethernet ports make it ideal for firewall setups, network gateways, digital signage and industrial control – perfect for a busy office or a factory floor.
- A flexible mix of USB ports lets you plug in everything from barcode scanners to printers and peripherals without juggling adapters.
- HDMI and VGA outputs mean you can attach modern or legacy displays with ease, making upgrades simple.

Ready for the real world

- Pre-installed with Windows 11 Professional, it arrives ready to join your domain, run your apps and keep your data protected.
- Its low-power design stays cool and quiet, even in warm environments, so you can leave it running around the clock.
- Installation is effortless – mount it wherever suits you, connect the included adapter, and you're up and running in minutes.

A smarter alternative to ageing desktops

- Replace bulky towers and save valuable workspace while gaining modern performance.
- Ideal for retail, healthcare, education, transport hubs and light industrial settings where dependable computing matters most.

Choose the Thinvent® Neo R/4 for a mini PC that punches well above its size – dependable, versatile and built to keep your business moving.
