Big power, small footprint. The Thinvent® Neo R/4 Mini PC is the robust and versatile engine your business operations demand, delivering enterprise-grade reliability in a remarkably compact chassis.

Uncompromising performance for demanding environments

- Experience smooth, responsive operation for everything from digital signage and POS systems to industrial automation, thanks to its powerful Intel® Core™ architecture.
- Its dual Gigabit Ethernet ports ensure rock-solid, high-speed network connectivity for critical data transfer and communication.
- Maintain seamless integration with legacy machinery and peripherals through the built-in DB9 serial port, a vital feature for modernising factory floors and retail setups.

Engineered for relentless reliability

- Designed with a durable steel housing, it stands up to the rigours of 24/7 operation in commercial and light industrial settings.
- Its efficient, fanless design allows for silent, maintenance-free running, eliminating dust ingress and moving parts that can fail.
- The flexible 12V DC power input and wide operating temperature range ensure dependable performance wherever your application is located.

Get the robust computing solution that just works. The Neo R/4 is your dependable partner for powering innovation without compromise.
