Unleash reliable industrial computing power, perfectly packaged.

Ideal for demanding applications

This compact, robust mini PC is engineered for 24/7 operation in challenging environments. Its fanless, solid-state design ensures silent running and exceptional reliability, free from the dust and failure points of moving parts. The rugged steel chassis stands up to vibration, shock, and wide temperature ranges, making it the steadfast core for your critical operations.

Key advantages for your business

- Drive digital signage, kiosks, or control panels with unwavering stability.
- Perfect as a dedicated machine controller or PLC companion in manufacturing and automation.

- Leverage dual Gigabit LAN ports for network redundancy or creating secure, isolated networks.
- Utilise the legacy DB9 serial port to seamlessly connect and manage older industrial equipment and peripherals.
- Enjoy ultimate software freedom; install your preferred, lean operating system for complete control and security.

Built to perform without compromise, the Neo R/4 delivers dependable processing muscle where you need it most. Simplify your infrastructure with a compact, industrial-grade solution that just works.
