The powerful core of your next big idea, quietly at work.

Unleash reliable computing power in the tightest of spaces. The Thinvent Neo R/4 Mini PC is engineered for seamless integration, providing steadfast performance for dedicated industrial and commercial tasks without the bulk of a traditional tower.

Where it thrives

- Embedded within digital signage or interactive kiosks, delivering crisp visuals without interruption.
- As the dependable brain for point-of-sale systems, processing transactions day in and day out.
- Powering automation and control systems with its legacy serial connectivity for specialised equipment.
- Serving as a compact network appliance or a lightweight server for essential business functions.

Built for the long run with a robust steel chassis, it operates coolly and reliably in varied environments. With dual Gigabit LAN ports for network redundancy and flexible display outputs, it connects effortlessly to your existing setup. This is computing, refined to its essential, most dependable form.
