Power in a pint-sized package, ready for your toughest tasks.

Engineered for the real world

The Thinvent Neo R/4 is the compact industrial workhorse you can trust in demanding environments. Its robust steel chassis is built to withstand vibration, dust, and the rigours of 24/7 operation, providing unwavering reliability where it matters most.

Connectivity without compromise

Seamlessly integrate into any setup with legacy and modern connections. The dedicated RS232 serial port ensures smooth communication with specialised equipment, while dual Gigabit Ethernet ports guarantee rock-solid, high-speed network links for critical data transfer.

Adaptable and efficient performance

With its capable processing power, this mini PC effortlessly handles digital signage, point-of-sale systems, and light industrial automation. Its fanless, low-power design ensures silent, reliable operation, reducing energy costs and eliminating a common point of failure.

Simplify your deployment

- Pre-installed with no operating system for complete software freedom.
- Compact form factor saves crucial space in control cabinets and kiosks.
- Versatile mounting options allow for flexible installation anywhere.
- Ready to run your chosen specialised software right out of the box.
