Power that fits in the palm of your hand

Ready to transform your workspace without sacrificing performance

The Neo R/4 Mini PC brings serious computing muscle to tight spaces. Whether you're running a busy retail till, managing a factory floor, or setting up a digital signage network, this compact powerhouse handles multitasking and data processing with ease. The 12th generation Intel Core i5 processor delivers the responsiveness you need for demanding applications, from inventory management to lightweight design work.

Why choose the Neo R/4 for your business

- Save valuable desk space – its small footprint means more room for monitors, paperwork, or customers

- Reliable 24/7 operation – built with industrial-grade components to keep your operations running smoothly
- Simple, secure setup – comes with FreeDOS so you can install only the software you need, nothing more
- Flexible connectivity – HDMI and VGA outputs let you connect legacy and modern screens side by side
- Low power consumption – runs cool and quiet on just 12V, cutting energy costs over time

Perfect for point-of-sale systems, kiosks, control-room terminals, and educational labs. No bloatware, no unnecessary extras – just a clean, dependable computer that gets the job done.

Upgrade your setup with a mini PC that means business.
