Powerful performance, compact design, and effortless reliability for your everyday business computing.

Why settle for a bulky tower when you can have the Neo R/4? This mini PC packs serious processing punch into a space-saving chassis, making it ideal for reception desks, retail kiosks, library workstations, or any environment where desk space is at a premium. The latest-generation Intel Core i5 processor handles multi-tasking with ease, from running office productivity suites to managing multiple browser tabs, all without a hint of lag.

Built with Thinux Embedded Linux, the Neo R/4 offers a secure, stable, and low-maintenance operating system. No licensing fees, no endless update cycles, and no bloatware – just a focused, responsive experience. Whether you're delivering remote desktop sessions, running custom Java or Python applications, or managing a fleet of devices from a central console, this system is ready to work.

The included keyboard and mouse set means you can get up and running straight out of the box. And with a rugged powder-coated steel chassis, the Neo R/4 is built to handle the demands of a busy working environment. It's quiet, it's cool, and it's designed to sit unobtrusively on your desk or mount neatly behind a display.

Choose the Thinvent Neo R/4 when you need a dependable, space-saving computer that delivers real-world performance without the complexity. It's the smart choice for professionals who value efficiency, simplicity, and value for money.
