Engineered for relentless reliability in the heart of your operation.

Introducing the Thinvent Neo R/4 Mini PC

This compact industrial powerhouse is built for environments where failure is not an option. Its rugged steel housing and fanless design ensure silent, dust-resistant operation, delivering consistent performance where standard PCs falter.

Built for demanding industrial applications

- Deploy it as a robust control unit for manufacturing machinery or process automation.
- Utilise its dual LAN ports for creating secure, dedicated network gateways or firewall appliances.

- Run your custom Python or Java applications reliably with the stable Thinux embedded platform.
- Perfect for digital signage, interactive kiosks, or thin client setups in harsh retail or warehouse settings.

Why choose the Neo R/4?

It arrives ready for work, complete with a keyboard and mouse. Its browser-based remote management allows for effortless monitoring and updates from anywhere, minimising downtime. With certified reliability and industrial-grade components, it's the set-and-forget computing core your critical projects deserve.
