## Engineered for Demanding Environments: The Thinvent® Neo R/4 Mini PC.

Uncompromising power meets unwavering reliability. Built for industrial applications where performance and stability are non-negotiable, the Neo R/4 delivers robust computing in a remarkably compact and durable steel chassis. It's the dependable digital heart for your critical operations.

### Perfect for Your Application

This mini PC excels as a dedicated workhorse in diverse settings. Its dual LAN ports make it an ideal choice for network gateways, firewall appliances, or local server nodes.

Deploy it confidently in digital signage, kiosks, or interactive displays, where its consistent operation ensures your message is always on.

Utilise it for light industrial automation, control systems, or as a dedicated monitoring station, benefiting from its stable Ubuntu Linux environment.

### Why Choose the Neo R/4

Experience robust processing power that handles multiple tasks smoothly, keeping your applications running without interruption.

Rely on industrial-grade construction designed for 24/7 operation in challenging conditions, from factory floors to retail environments.

Simplify deployment and integration with a compact, fanless design that saves space and reduces points of failure.

Leverage a secure and efficient platform with a pre-installed, stable operating system, ready for your specialised software.

The Neo R/4 is more than a computer; it's a resilient foundation for your technology-driven processes.
