Industrial power, pint-sized package.

The Thinvent® Neo R/4 Mini PC proves that great things really do come in small, rugged boxes. Whether you're running a busy production line, a retail system, or a secure network gateway, this little workhorse delivers the dependable performance your operation deserves — all in a footprint that slips neatly into the tightest of spaces.

Why make the Neo R/4 your next investment? It's simple. You need gear that keeps up with your business, not the other way around. The powerful Intel® Core™ i5 processor handles multiple demanding tasks at once, so your applications stay responsive even when the pressure is on. And with a robust steel housing that shrugs off dust, heat, and the rough and tumble of daily industrial life, this is a machine built to keep running when it matters most.

For environments where security and reliability are non-negotiable, the dual Ethernet ports give you rock-solid wired connectivity every single time. No flaky wireless drops, just a stable, fast link to your network and the wider world. And because it comes ready with Windows 11 Professional, you can deploy it straight onto your desk, your wall, or your machinery without fuss.

From digital signage and edge computing to office kiosks and control-room monitoring, the Neo R/4 slots in seamlessly. It's quiet, it's cool, and it's constantly on call.

- Gain effortless performance for multi-tasking and heavy applications.
- Enjoy peace of mind with a rugged steel casing that's built to last.
- Keep your network secure and stable with dual wired LAN ports.
- Save space and reduce clutter with a compact, neat design.
- Deploy immediately with a professional operating system included.

Choose the Thinvent® Neo R/4 — the no-nonsense mini PC that works as hard as you do.
