Unlock serious power from a silent, compact powerhouse.

Built for the relentless demands of business and industrial environments, the Thinvent Neo R/4 Mini PC delivers robust performance where it matters most. Its whisper-quiet, fanless design ensures flawless operation in settings where dust, vibration, or noise are critical concerns, from factory floors to secure control rooms.

Why choose the Neo R/4 for your operation

- Experience seamless multitasking and rapid data processing with advanced Intel Core power, keeping complex applications and multiple displays running smoothly.
- Achieve ultimate network reliability and security with dual Gigabit Ethernet ports, perfect for network segmentation, firewall duties, or ensuring a constant, stable connection.

- Deploy with confidence using the pre-installed, stable Ubuntu Linux OS, a secure and efficient platform for custom software solutions and digital signage.
- Simplify your setup with the included keyboard and mouse, arriving ready to work straight out of the box to minimise downtime.
- Its rugged, steel construction and wide operating temperature range guarantee dependable service in challenging conditions, day in and day out.

Embrace a clutter-free, professional workstation without compromising on capability. The Neo R/4 is the dependable, high-performance engine for your specialised computing tasks.
