Engineer the future, uncompromised.

Introducing the Thinvent® Neo R/4 Mini PC

Where formidable processing power meets unparalleled reliability in a remarkably compact form. This isn't just a computer; it's the resilient nerve centre for your most demanding industrial applications.

Engineered for relentless performance

- Harness advanced multi-core processing to effortlessly handle complex automation, machine vision, and real-time control tasks without lag or compromise.
- Experience rock-solid connectivity with dual Gigabit LAN ports, ensuring seamless network integration and critical data transfer for process monitoring and control systems.

- Enjoy versatile deployment in space-constrained environments, from digital signage and kiosks to rugged factory floors, thanks to its robust, industrial-grade steel construction.
- Rely on stable, consistent operation with a wide-range power input designed to withstand variable industrial power conditions, keeping your operations running smoothly.

Built for the long haul in challenging environments, the Neo R/4 delivers the dependable computing muscle you need to drive innovation and efficiency. Focus on your process, not your hardware.
