Big power in a tiny footprint. The Thinvent Neo R/4 delivers robust industrial computing wherever you need it, without the bulk or complexity of a traditional desktop.

Ideal for demanding applications

- Powering digital signage and interactive kiosks with flawless media playback.
- Acting as a reliable, low-profile server for network management and data acquisition.
- Running specialised software for automation, control systems, and IoT gateways.
- Serving as a compact workstation for field operations and remote technical support.

Why choose the Neo R/4?

Its industrial-grade construction is built for 24/7 operation in challenging environments. With dual Ethernet for critical network redundancy and comprehensive remote management tools, you maintain complete control from anywhere. The integrated Thinix operating system provides a stable, secure, and application-ready platform right out of the box, streamlining deployment and reducing setup time. This is a purpose-built computing solution that prioritises reliability and ease of integration over unnecessary frills.
