Unleash industrial power, condensed into a compact, silent footprint.

The Thinvent® Neo R/4 Mini PC is engineered for demanding environments, providing robust, fanless performance where you need it most. Its powerful Intel® processing handles complex industrial software and simultaneous data streams with ease, ensuring your operations run smoothly and without interruption.

Ideal use cases

- Powering digital signage and interactive kiosks in retail or public spaces.
- Running automation software and process control in manufacturing.
- Acting as a reliable network gateway or firewall with its dual Ethernet ports.
- Serving as a dedicated controller for IoT applications and smart systems.

Why choose the Neo R/4?

- Rock-solid reliability with a rugged, steel construction built for 24/7 operation.
- Silent, fanless design eliminates dust intrusion and mechanical failure points.
- Seamless integration into your existing setup with versatile connectivity options.
- Certified for industrial use, offering peace of mind for critical deployments.
- A future-proof solution with Windows 11 IoT, providing long-term stability and support.

Maximise uptime and minimise hassle with a computing core designed for the real world.
