Unleash serious power in a surprisingly small footprint. The Thinvent® Neo R/4 Mini PC is engineered for demanding environments where space is at a premium but compromise is not an option.

Built for relentless performance

- Tackle intensive industrial applications, digital signage, and complex data processing with the effortless speed of a high-performance Intel processor.
- Experience exceptional reliability and stability for 24/7 operation, keeping your critical systems running without interruption.

Engineered for robust connectivity

- Harness the flexibility of dual Gigabit LAN ports for network redundancy, load balancing, or connecting to separate networks with total ease.

- A comprehensive array of ports ensures seamless integration with a vast range of peripherals and legacy equipment.

Designed for durability and simplicity

- Its rugged, compact steel chassis is built to withstand the rigours of industrial settings, from factory floors to control rooms.
- Get up and running instantly with a complete, ready-to-work package that includes a keyboard and mouse, minimising setup time and complexity.

Ideal for industrial automation, thin client deployments, or as a powerful embedded controller. The Neo R/4 delivers robust, dependable computing power exactly where you need it.
