Unleash robust computing power in a compact, industrial-grade package.

Engineered for demanding environments

The Thinvent® Neo R/4 Mini PC is built to thrive where standard computers fail. Its rugged steel housing and wide operating tolerances ensure steadfast performance on the factory floor, in digital signage installations, or as the core of a dedicated control system.

Key advantages for your operation

- Experience swift, reliable processing for automation, monitoring, and data acquisition tasks with powerful Intel® performance.
- Connect directly to legacy machinery and modern networks simultaneously with dual Gigabit LAN and a built-in serial port.

- Simplify deployment and integration with a fanless, space-saving design that runs quietly on efficient 12V DC power.
- Rely on professional-grade Windows 11 Pro for enhanced security and management right out of the box.

Ideal for seamless integration

Deploy it as a dependable edge computing node, a robust point-of-sale terminal, or the central brain for kiosks and interactive displays. This is the compact, no-compromise computing solution your industrial application demands.
