Unleash the power of industrial computing, condensed.

Built for relentless performance in any environment, the Thinvent Neo R/4 Mini PC is the robust, intelligent heart of your mission-critical operations. Engineered for durability and seamless connectivity, it thrives where standard computers falter.

Ideal for demanding applications

- Powering digital signage and interactive kiosks with unwavering reliability.
- Serving as the central control unit for factory automation and machine vision systems.
- Managing network security and routing with its robust dual LAN capability.

- Running legacy industrial equipment and point-of-sale systems via its dedicated serial port.

Why choose the Neo R/4?

It delivers enterprise-grade Intel processing power in a rugged, compact steel chassis, designed for 24/7 operation. With integrated dual-band Wi-Fi and the efficient, secure Thinix™ operating system, it offers unmatched remote management and connectivity. This is more than a mini PC; it's a steadfast partner engineered for productivity, saving you space, energy, and complexity without compromising on capability. Deploy with confidence for a smarter, more connected industrial edge.
