Powerful performance in a compact, silent workhorse.

Ready for the modern office without the bulk

This mini PC delivers the smooth multitasking you need for everyday business applications, web browsing, and remote work. The AMD Ryzen 5 processor sips power while handling spreadsheets, video calls, and document editing with ease. It takes up minimal desk space, letting you keep your workspace clean and productive.

Built for reliability and security

With Thinux Embedded Linux, you get a stable, low-maintenance operating system that resists malware and requires no antivirus hassle. Pre-installed tools for remote desktop, SSH, and VNC shadowing make IT management simple from anywhere. LibreOffice, a PDF viewer, and multimedia player cover all your productivity and entertainment needs out of the box.

Perfect for digital signage and kiosks

The compact steel chassis is tough enough for public-facing installations, and the wide range of video outputs makes it easy to connect to displays. Low power consumption and fanless operation keep it quiet and cool in any environment.

Complete and ready to deploy

Every unit comes with a keyboard and mouse, plus a 2m power cable. No need to hunt for peripherals – just plug in and get to work. Whether you're setting up a hot desk, a school computer lab, or a retail point-of-sale station, this mini PC saves you time and money.

Choose the Neo R/4 for a dependable, space-saving solution that just works.
