The Unseen Engine for Your Digital Workspace.

Introducing the Thinvent® Neo S Thin Client: the discreet powerhouse designed to streamline your operations without the bulk or complexity of a traditional desktop. This isn't just a computer; it's a smarter, simpler way to connect to what matters.

Perfect for Your Environment

- **Modern Offices & Call Centres:** Deliver a consistent, responsive experience for every user. Its compact, robust design tucks neatly behind a monitor, freeing up valuable desk space and reducing cable clutter for a cleaner, more professional environment.
- **Industrial & Legacy Settings:** Built with durability in mind, it reliably connects to both modern displays and specialised legacy equipment, making it the ideal bridge between new technology and established systems in warehouses, labs, or manufacturing floors.

- **Secure & Managed Networks:** Offering a focused, efficient point of access to central servers, it enhances security by keeping data safely centralised. Its straightforward design means less can go wrong and it's easier for your IT team to deploy and manage at scale.

Why Choose the Neo S?

Experience a new level of simplicity and reliability. It arrives ready to integrate into your network, complete with a keyboard and mouse, so you can get set up and started without delay. Enjoy swift, dependable performance for everyday business tasks, all from a device that works quietly in the background. It's the robust, no-fuss foundation for a more productive and organised workplace.

Choose Thinvent® Neo S. Connect with confidence, work with ease.
