Engineered for reliability in the mission-critical heart of your operations.

The Thinvent® Neo S is your robust, dedicated workstation solution. Designed for businesses that demand steadfast performance without the bloat and vulnerabilities of a standard PC, this thin client is the cornerstone of a streamlined, secure, and cost-effective IT environment.

Perfect for

- Centralised computing environments like Virtual Desktop Infrastructure (VDI) and server-based computing.
- Industrial and commercial settings requiring legacy connectivity for specialised equipment.
- Secure front-desk, call centre, or point-of-sale terminals where consistency is key.

Why choose the Neo S?

It delivers a responsive and dependable user experience for everyday business tasks, directly from your central server. Its rugged, compact steel construction ensures durability in demanding workplaces, from the shop floor to the admin office. By separating the desktop from the data, it enhances security, simplifies management, and reduces long-term energy and maintenance costs dramatically. Free from an operating system, it offers the ultimate flexibility for IT administrators to deploy a tailored, lightweight solution that integrates seamlessly into your existing network. Choose the Neo S for a no-fuss, professional-grade endpoint you can truly set and forget.
