SKU: TREO-CU5_14L-16_5_16_5-M256-12_5-M-110-KM

Small in size, immense in capability – the Thinvent Treo Mini PC keeps your business running smoothly, securely and stylishly.

Built for real work

The Treo is a compact powerhouse that slips neatly behind a monitor, under a desk or into a tight retail space. It boots quickly, responds instantly and handles everyday business applications without fuss. Whether you're running a busy reception desk, a control room or a branch office, this little machine delivers the dependable performance you need – day in, day out.

Made to last, made in India

Every Treo is 100% designed and made in India, with a solid aluminium body in a sleek black finish. That's not just for looks. The metal construction wicks away heat efficiently, so the system stays cool and stable even during long shifts. It feels reassuringly sturdy – no flimsy plastics, no rattling panels, just a smooth, solid build that's ready for the real world.

Connectivity that keeps you going

With dual network ports and reliable wireless options, the Treo is ready for fast, stable connections to the internet, your office network and peripheral devices. You can trust it to keep your point-of-sale system online, your digital signage playing and your team connected without interruption.

Your brand, your way

Need something a little different? For larger requirements, Thinvent can tailor the Treo's colour and design to match your corporate identity. From a specific accent shade to a custom front panel, we'll help you create a device that looks as professional as the work it powers.

Choose the Treo Mini PC for dependable performance, rock-solid construction and the reassurance of genuinely local manufacturing. It's the quiet workhorse your business deserves.

Thinvent Treo Mini PC

Specifications

PROCESSING

Generation	14th
Series	Ultra 5
Processor Brand	Intel
Processor Model	125U
Cores	12
Max Frequency	4.3 GHz
