Big Power, Compact Footprint: The Industrial Mini PC, Proudly Built in India.

### Engineered for Reliability

Experience unwavering performance in demanding industrial environments. The Thinvent® Treo Mini PC is 100% designed and made in India, featuring a solid aluminium chassis for superior durability and efficient heat dissipation. Its robust metal build and smooth finish ensure it stands up to the rigours of continuous operation.

### Built for Your Demanding Applications

This compact powerhouse is engineered to drive your critical operations smoothly and efficiently. Its potent processing capability handles complex tasks with ease, making it the ideal core for a multitude of industrial scenarios.

- Perfect for digital signage, kiosks, and interactive displays in retail or public spaces.

- Reliably control automation systems and production line machinery.
- Serve as a dedicated node for network monitoring, data acquisition, or thin client setups.
- A steadfast solution for surveillance systems and security operations centres.

### Why Choose the Treo Mini PC?

Beyond its robust performance, the Treo offers exceptional versatility. The dual Ethernet ports provide reliable, high-speed network connectivity essential for industrial communication. Its compact VESA-mountable design saves crucial space, while the option for customisable colours and designs on large orders allows it to integrate seamlessly into your specific application and branding. Choose the locally engineered, industrial-grade computing solution that combines power, reliability, and tailored flexibility.
