Think Big, Deploy Small: The Mini PC Powerhouse for Industrial Agility.

Uncompromising Performance in a Compact Frame

Tackle demanding industrial applications with ease. This robust mini PC delivers the reliable processing power needed for digital signage, kiosks, and automation control, all from a remarkably small footprint that saves crucial space.

Built for Resilience and Reliability

Encased in a solid aluminium chassis for superior heat dissipation and durability, it thrives in challenging environments. Its fanless design ensures silent, maintenance-free operation, while dual Gigabit LAN ports provide network redundancy for critical connections.

Proudly Engineered in India

This is precision engineering you can trust, designed and manufactured entirely in India to meet the highest standards of quality and support. We stand behind every unit.

Your Vision, Our Craftsmanship

We understand that your project is unique. For large-scale deployments, we offer customisation options including housing colours and design modifications to perfectly align with your brand and operational needs.

Ready for Your Specific Workload

Arriving without a pre-installed operating system, it offers the ultimate flexibility for you to load your preferred software, creating a tailored solution that integrates seamlessly into your existing infrastructure.
