Small in stature, mighty in performance — the Thinvent Treo Mini PC keeps your business moving without taking up your space.

The Treo is the clever choice for workplaces that need real computing power in a tidy, discreet package. Whether you're running a busy reception desk, a retail counter, a classroom, or a light industrial control room, this Mini PC slides in beside a monitor or tucks behind a screen with its included VESA mount, freeing your desk for the things that matter.

Why you'll love the Treo

- A dependable 13th generation Intel Core processor delivers smooth everyday performance, so your applications open quickly and multitasking feels effortless.
- Built from solid aluminium with a sleek black powder-coated finish, the Treo is as tough as it looks. The metal body works hard to draw heat away from the components, keeping the system cool and stable even during long working days.
- Quiet, compact, and efficient, it sips power while giving you the connectivity you need for displays, peripherals, and a fast wired network.
- It arrives ready to work with Windows 11 Professional, plus a matching Thinvent keyboard and mouse, so you can plug in and get on with your day.
- Every unit is 100% designed and made in India, meaning you can trust the build quality and support from a manufacturer that stands behind its products.

The Treo is also your canvas. With large requirements, Thinvent can tailor colours and design to match your brand or workspace perfectly.

If you want a Mini PC that combines solid construction, steady performance, and the flexibility to be your own, the Thinvent Treo is the one to choose.
