Powerfully compact computing, proudly made in India.

Keep your operations lean and efficient with the Thinvent® Treo Mini PC, a mighty powerhouse shoehorned into a space-saving chassis. Built around a robust 12th generation Intel Core i5 processor, this mini PC is designed for your most demanding edge applications without cluttering your workflow space. Perfect for digital signage, dedicated kiosk systems, or as a streamlined workstation, the Treo delivers consistent, responsive performance from a footprint that fits virtually anywhere.

Say goodbye to fragile plastic machines. It's crafted from solid aluminium, a choice made purposeful for superior heat dissipation and a reliably cool, quiet operation. Its powder-coated black finish is smooth to the touch and distressingly scratch-resistant, offering lasting structural integrity over time.

For highly targeted or enterprise deployments requiring hundreds of identical units, we can tailor its colour scheme or housing details to your exact needs.

Engage directly with your dual display setup, accessible interfaces range to peripherals, and wired networking ensures a stable connection for anything thrown at it. Windows 11 IoT Enterprise comes studio-loaded, purpose-built for fidelity in focused, single applications.

Overcome instability from big-box, generic desktop replacements and house value performance exactly where you plant it. Embrace thicker metal, not increased size, for a tempered machine yielding flaw proof paces country-run thousands higher miles deep for manufacturing cycles in raw where each fall counts.

In work is assembly for measure, every push comes known. That is make yours lean strength. Choose Treo.
