

Thinvent Treo Mini PC

Intel Core i5-12450H processor

8 core, up to 4.4 GHz, 12 MB cache

16GB DDR4 RAM (2 x 8GB)

256GB SSD

No WiFi

Without OS

SKU: TREO-I5_12H-8_8-M256-12_5-X-W_OS-0

Pin-sharp industrial performance, designed and built in India.

The Thinvent Treo Mini PC is your answer to reliable, low-power computing that doesn't compromise on speed. Using the latest 12th Gen Intel Core i5 processor performance is generous with eight cores for handling demanding tasks.

You get a streamlined tool that is incredibly stable with industrial-rated 12V DC power input (100% designed and made in India). The all-black aluminium body doubles as a dedicated heatsink made of solid metal. This smooth working finish provides massively efficient heat dissipation wherever it sits.

Because removing complexity adds durability, many applications choose to embed our computers. Should your requirement grow to a number, ask the Thinvent team about custom colour and design tweaks to let it match your locations.

Solutions users come to love benefit fully from rigid port coverage. With HDMI and VGA simultaneously in easy view, alongside substantial (Gigabit-fitted) copper ethernet to transmit, plus substantial top expansion, future roadmaps remain versatile easily.

Integrated right or under your monitor mount, memory of 4GB of fast DDR4 lives alongside the storage address from embedded NVMe-high-speed. For very control reliant framing you decide with your own safe secure controlled by logic.

Wear resistance in warm sections running secure keeps heavy fields powered or static command designs quiet to launch. Join stable Indian-produced piece starting simply continuous data state from an Indian inventive thin surface micro equipment. The new typical dedicated host systems complete logical local knowledge plus needed low environmental sensible. Aim small once continuous professional team boards state instant tiny or field-end segment implementation building always powered same calm proven effective. Thinvent Treo Mini PC

Specifications

PROCESSING

Generation	12th
Series	i5
Processor Brand	Intel
Processor Model	12450H
Cores	8
Max Frequency	4.4 GHz
Cache	12 MB
Main Memory	16 GB
SSD Storage	256 GB

DISPLAY

HDMI	1
VGA	1

AUDIO

Speaker Out	1
Mic In	1
Front Speaker Out	1
Front Mic In	1

CONNECTIVITY

USB 3.2	2
USB 2.0	2
Front USB 2.0	4

NETWORKING

Ethernet	1000 Mbps
----------	-----------

POWER

DC Voltage	12 Volts
DC Current	5 Amps
Power Input	100~240 Volts AC, 50~60 Hz, 1.5 Amps maximum
Cable Length	2 Metre

ENVIRONMENTAL

Operating Temperature	0°C ~ 40°C
Operating Humidity	20% ~ 80% RH, non condensing
Certifications	BIS, RoHS, ISO

PHYSICAL

Form Factor	Mini PC
Dimensions	199.5mm × 181.5mm × 29.5mm
Packing Dimensions	224mm × 319mm × 85mm
Housing Material	Aluminium
Housing Finish	Powder Coated
Housing Colour	Black
Net and Gross Weight	1.42kg, 1.65kg

ACCESSORIES

VESA Mount	1
------------	---

OPERATING SYSTEM

Operating System	Without OS
------------------	------------
