SKU: TREO-I5_12L-16_16-M1024-12_10-M-110-KM

Pocket-sized power, built to outlast your workday.

Say hello to the Thinvent® Treo Mini PC – the quiet, clever workhorse that slips behind a monitor or tucks under a desk, yet delivers the performance your business demands. Powered by a 12th Generation Intel® Core™ i5 processor, it flies through spreadsheets, video calls, and busy web work without breaking a sweat. Inside a sturdy, solid aluminium shell, it stays cool and collected, even when the pressure is on.

Why choose the Treo?

- It keeps your desk uncluttered – a neat, discreet unit that frees up valuable workspace.
- It connects to two networks at once, so you can separate office and guest traffic, or link to a NAS with ease.
- It offers dual-band WiFi, meaning a strong, reliable connection wherever you plug in.
- It comes with Windows 11 Professional, ready to join your company domain and run your essential business software.

- It arrives with a matching keyboard and mouse, so you can be productive from the moment you unpack.

Where does it shine?

Picture a retail counter, a clinic reception, a small office, or a home workstation – anywhere space is tight and reliability matters. The Treo is built for always-on duty, sipping power while staying whisper-quiet. Its smooth, powder-coated finish shrugs off dust and fingerprints, and the VESA mount means you can hide it out of sight behind a screen.

Proudly 100% designed and made in India, the Treo comes in a classic black that looks professional anywhere. Need something different? For larger orders, we can tailor the colour and design to match your brand or workspace perfectly. Solid metal build, quality assurance, and a performance that punches far above its price – that's the Thinvent promise. Make the switch to a mini PC that means business.

Thinvent Treo Mini PC

Specifications

PROCESSING

Generation	12th
Series	i5
Processor Brand	Intel
Processor Model	1240P
Cores	12
Max Frequency	4.4 GHz
