Small footprint, mighty performance – the Treo Mini PC that powers your workplace without taking up space.

Think of the Thinvent Treo Mini PC as your quiet, tireless workhorse. Tucked neatly behind a monitor or mounted on the wall, it brings serious computing power to desks, reception areas, shop floors and classrooms – all while keeping your workspace tidy and clutter-free. With its robust Intel Core processor and responsive solid-state storage, everyday multitasking feels instant: spreadsheets open in a blink, video calls stay smooth, and office software runs without that frustrating spinning wheel.

Built to keep its cool under pressure, the Treo's solid aluminium body does more than look smart in its sleek black finish. It acts as a natural heat sink, drawing warmth away from the components so the system stays reliable even during long working days, warm summers or busy shifts. This is no flimsy plastic box; it is a sturdy, smoothly finished piece of engineering that feels reassuringly solid the moment you pick it up.

Where this little gem truly shines is in its versatility. Slide it into a retail kiosk, hook it to digital signage, or set it up for hot-desking – it handles each task with quiet confidence. Dual-band WiFi and gigabit Ethernet keep you connected without cables snaking everywhere, while the included Windows 11 Pro setup is secure and business-ready out of the box.

And here is the part we are most proud of: the Treo is 100% designed and made in India. That means dependable quality, dependable supply, and a product you can trust. Need a bespoke touch? For larger orders, we can tailor colours and design to match your brand or environment perfectly.

Choose the Thinvent Treo – the compact, cool-headed companion your business deserves.
